Bob;

We've received an Office Action in which the Examiner has rejected all the claims except those reciting the tube -to- nozzle O.D. ratio as about 1.2

The rejection is based on a proposed combination of the references to Hashimoto et al and Yamazaki et al attached. the Examiner saufs it would bre obvious

to substitue the pressure relief valve 62 of Fig 9 of Yamazaki into the system of Hashimoto.

Pease review these two references and give me a call.

I've put the case on 30 dayTtime Extension until Sept. 12 for reply.
